Ascorbic acid Food Grade

DESCRIPTION

A natural water-soluble vitamin (vitamin C). Ascorbic acid is a potent reducing and antioxidant agent that functions in fighting bacterial infections, in detoxifying reactions, and in the formation of collagen in fibrous tissue, teeth, bones, connective tissue, skin, and capillaries.

PROPERTIES

- L-ascorbic acid is a white to very pale yellow crystalline powder with a pleasant sharp acidic taste. Almost odorless.
- L-ascorbic acid is the L-enantiomer of ascorbic acid and conjugate acid of L-ascorbate. ...
- A six carbon compound related to glucose.

APPLICATION

If you want to amp up your existing skincare regimen, it's incomplete without this potent ingredient. It is an excellent antioxidant that helps enhance skin tone and lighten blemishes or dark spots. While L-ascorbic acid is good for your skin, it is important to use it correctly.
